GUEST COLUMNS: Do you have a strong opinion about some aspect of Columbia River Basin salmon recovery or any other basin fish and wildlife issue? Want to share that opinion? The CBB is now accepting guest columns to be published on the new website. There is no exact word limit, but if you are hitting 850 words it's getting a bit long. Please send your guest column for consideration to Bill Crampton, Editor, at billcrampton@bendcable.com.

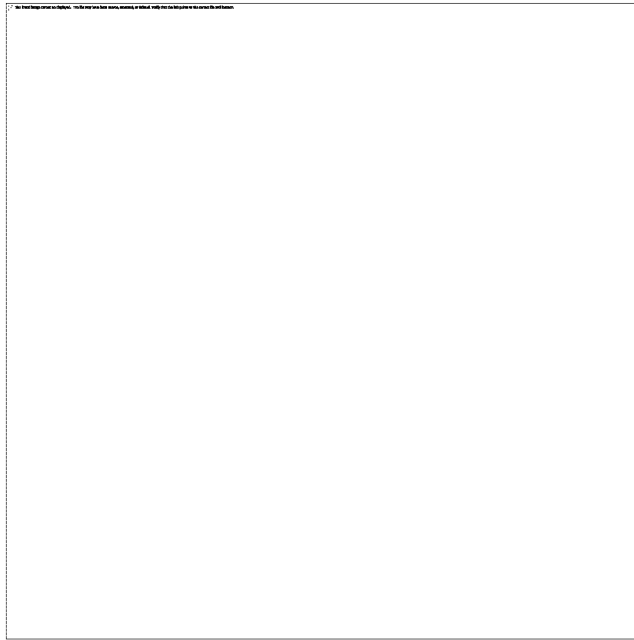

RESEARCH: The CBB is interested in keeping readers informed about important research and studies related to Columbia Basin salmon and steelhead and other fish and wildlife issues. If you are a researcher doing important work that would be of interest to CBB readers, or had your work published recently, please contact us at billcrampton@bendcable.com

For more information about the CBB contact:
